Full Stack Developer

📍 Berlin, Germany

SUMMARY

As a Full Stack Developer specializing in Ruby on Rails and React, my software development approach is enriched by my musical background. With experience as a teacher in both front- and backend technologies, I've mentored hundreds of students through over 50+ graduation projects, incorporating advanced features like API integrations and AI implementations such as Google Lens and ChatGPT. I am eager to deepen my coding skills and contribute to a mission-driven company, where I can connect my passion for innovative problem-solving with a collaborative, well-structured team environment where we can all thrive.

EXPERIENCE

Full Stack Developer   08/2023 - 03/2024

Minime GmbH (Startup)   Berlin, Germany

Modern Therapy Solution

- Led the end-to-end implementation of several pivotal features, expanding product functionality and driving successful launches.
- Enhanced UI through intensive collaboration with Design team, resulting in a significant uptick in user satisfaction metrics.

Teacher/Teaching Assistant   01/2023 - Present

Le Wagon   Berlin , Germany

Coding Bootcamp

- Guided students through 50+ projects, providing hands-on assistance and insightful feedback on their code.
- Facilitated learning by creating engaging workshops and exercises tailored to diverse skill levels.

Teaching Assistant   Date period

Le Wagon Casablanca   Location
